

IT CONSULTING

Today's IT projects bring about more than just functional challenges. Issues such as security, scalability, redundancy, information architecture and speed of performance are just a few of the criteria that must be evaluated in the early stages of planning an information technology project.

Our experienced team can handle projects large and small, from needs assessment through to implementation. We handle both short-term and long-term consulting projects.

WEB DEVELOPMENT & HOSTING

We strive to create professional web site designs that will effectively promote our clients products and services to their target audience. Our dynamic and professional web designs will make your website stand out to your site visitors and accomplish the website goals you have created!

Line Syte, Inc.

952-583-6790

We make your life easier with cost effective solutions to help run your business more efficiently.

Trying to keep up with today's technology can be a daunting task. Technology keeps changing and evolving day by day. It's important to keep up with current information so you can keep costs down while driving productivity up. We can help your business whether it's a small or large project to get you on track and make your goals.

flexible solutions for your business needs

VIDEO PRODUCTION

As we continue to move forward in technology, it's important to have multiple tools at your fingertips. We handle all video productions aspects from script to screen. We can create anything from training videos to commercials and deliver them in a variety of formats. (DVD, Web, Streaming, Mobile Device, etc.) If you would like to present your company in a new dynamic way, please contact us and we'll take you through every step of the way.

SCAN TECHNOLOGY

For sales agencies, sales consultants and vendors, the process of getting orders, invoices and commissions entered in quickly and accurately is vital to success. We have worked with a leading industry software company for 6+ years and can help with the technology, training and management of your database.
